LEGRAND BENEDICT

OPEN FACE TOASTED ENGLISH MUFFIN
with POACHED EGGS & POTATOES

There are at least two stories about the original Eggs Benedict, though both date to the 1890's in New York City. One story names Delmonico's which was the first public restaurant and was the point of origin in 1893. A patron by the name of Ms. LeGrand Benedict was tired of the usual fare at the restaurant and with the help of the chef Charles Ranhofer, negotiated for the new dish called eggs a la benedict. The other story is in 1894, a hungover Wall Street broker, who's name was Lemuel Benedict is having breakfast at the Waldorf Astoria and requested a small pitcher of hollandaise with his poached eggs and bacon to treat his hangover. So take your pick, the wife of the elite or the Wall Street broker.
